About Us

Ecodev is registered firm in Myanmar for helping local farmers to produce value added agriculture produces. Since 2000, as part of fao's development project, ecodev helps 50 [producer groups](#) in 7 [poor villages](#) from Central [dry zone](#) of Myanmar to start producing and marketing of dehydrated onion and ginger. More than 100 women benefit from employment created and their income has been increased. As ecodev wants to expand this development-cum-business activities for helping local poor extensively, we are looking for the opportunity in expanding the market of these products internationally.
