Link Tool: [Andorra Agriculture](#) - [Andorra Fertilizer](#)

About Us

Alfy & Sons Investments (Pvt.) Ltd. was incorporated in 1999 as a Zimbabwean trading company under the Gateman Africa group of companies with the vision of becoming the worlds preferred partner for multi sectoral trade with Africa. Since our incorporation in 1999 we have traded extensively within the Southern African Development Community (SADC), the wider African continent as well as further abroad, even as afar off as Iceland.

Our portfolio of trade is marked by its diversity, we have traded in ornamental woods, pottery, computer equipment, agricultural equipment, granite and vehicle parts to mention but a few of the items in our portfolio of trade. As we have so traded, we have accumulated immense knowledge of the continent as well as created a footprint of continental proportions through a solid network of partners across Africa.

Zimbabwe,has over the last ten years suffered severe economic decline and it is only in recent political developments that hope for economic resuscitation has appeared, here at Alfy & Sons we share in that optimism and are confident of brighter prospects for our economy as well as a restoration of the rule of law which should see Zimbabwe regain its former position as one of Africas preeminent economies.

It is this hope that has informed our thinking as we developed our long term trading strategy here at Alfy. We are looking to develop synergies with international businesses seeking to penetrate not only the Zimbabwean market but the African market as well
