4A Zeolite detergent is the major non-phosphate builder or low phosphate detergent. This 3 in 1 product consists marjoly of 4A Zeolite detergent, moderate sodium carbonate and organic polymer builder, having the same efficiency as sodium phosphate. It is not necessary to worry about the problem of quality. 4A Zeolite detergent auxiliary can also be confined with many surfactants. Such as LAS, surfactant-AEO, a-olefin sulfonate,if configed with the last one, the efficiency would be especially better.
