Trade Detail

We are the professional manufactory and supplier of metallized capacitor film and BOPP capacitor film in China. They are both excellent in quality and reasonable in price. BOPP film is colorless, odorless, tasteless film, non-toxic, and has a high tensile strength, impact strength, rigidity, toughness and good transparency

Products:Aluminum metalized polyester film.Aluminum-Zinc alloy metalized polyester film.Aluminum-Zinc alloy metalized polyester film with heavy edge.Aluminum metalized polypropylene film.Aluminum-Zinc alloy metalized polypropylene film.Aluminum-Zinc alloy metalized polypropylene film with heavy edge.

Features:1) Base film: Polyester and polypropylene film2) Metalized Al, without heavy edge; Resistivity: 2 - 4 ohms with tolerance 25%3) Metalized Al/Zn alloy, with heavy edgeA) Resistivity of uniform layer: 7 ohms with tolerance 25%B) Resistivity of reinforced edges: 3 ohms with tolerance 0.5 ohms4) Thickness: 4micron-12micron5) Width: 37.5mm, 50mm, 62.5mm, 100mm and so on6) Margin: 1.5mm, 2mm, 2.5mmA)single sided margin; B)double sided margin; C)central margin7) Winding core: 76mm8) Outside diameter: 200mm-330mm
Packing:Vacuum packing
